## WORKING EXPERIENCE

---

**PT Indotruck Utama, Jakarta**

Nov 2023 – present

*Mobile and Application Developer*

- Developed more than five applications (frontend/backend) for internal office uses.
- Made a NPM script for creating API project boilerplate, customized to the team's needs.
- Tested every application which is about to go to production.
- Successfully implemented face recognition based automatic door lock for two rooms in the office.
- Found crucial security leaks in three former applications, leading to implementation of new security mechanism to all the projects.
- Supported network engineering, setting up six Mikrotik routers for some company's sites in the remote area and initiating tunneling connection to the head office.
- Technology stacks used: Javascript with Angular, Tailwind CSS, Express, MongoDB.

**PT Digital Solusi Pratama, Jakarta**

Jun 2022 – Sep 2022

*Full Stack Developer - Internship*

- Developed a ticketing application to manage tickets from any department to another department. Majorly involved in every development phase, from requirements gathering, design, development, testing, and deployment.
- Technology stacks used: Javascript with React, ChakraUI, Tailwind CSS, Express, MySQL.

**Kalbis Institute, Jakarta**

Apr 2019 – Mar 2020

*Creative Design Marketing*

- Designed digital content such as Instagram posts, Instagram stories, web banners.
- Provided print designs for flyers, coupons, brochure for marketing needs.
- Edited highlight video for events.
